Dear Mr. X
New-York
USA

8th October 2008.

There is our estimate about the condition of the oil painting by "Emilio Pettoruti"

Details:

Size: 55.5*70.7 cm, Not dated, Signed, on the left bottom.

We were asked to estimate the condition and the age of this painting.

Our conclusion is that the painting is recent (few years).

The condition of the support (cotton made canvas) is new.

The nails are old but they are reused.

No signs of aging, as are expected from painting that supposed to be 40-60 years old.

The paint is flexible like painting that did not finish the polymerization process, (12-24 month's).

The stretcher is new with some effort to make it look old.

Sincerely yours,
Michael Karo
